

Cañon City Schools

Colorado, USA

What challenge did Mobile Guardian help you solve?

Teachers requested a way to monitor student screens during class to help students stay on task. We also were looking for a system that would allow us to easily implement a web filter for the devices that would be going home with students.

Devices: Chromebooks

Is Mobile Guardian deployed across the entire district?

Yes, we have deployed Mobile Guardian across the entire district which encompasses 8 buildings.

Tell us a little about the mobile device strategy for your district

Cañon City Schools has implemented a 1:1 Chromebook program for all K-12 students. We wanted to give students a greater opportunity to connect with the greater world through access to the internet. Our teachers utilize the Mobile Device Management feature of Mobile Guardian to control devices during class as well as to pass information to all student devices.

Has the COVID-19 pandemic impacted your district?

Yes, we were forced to implement Distance Learning due to COVID-19. Teachers were very thankful for Mobile Guardian's Classroom Management feature. It allowed them to effectively support the learning from a distance.

Is there anything districts should be aware of?

The initial setup is pretty intensive, but Mobile Guardian provides support all along the way to make the process quick and painless.

Our Report Card

"It has been a very beneficial relationship. The customer service has been fantastic. Whenever we have had questions or concerns, we have received prompt and personalized support."

Daniel Coppa
Instructional Technology Coordinator

About Mobile Guardian

Purpose-built for education, Mobile Guardian is a cloud-based, easy-to-use solution that helps schools safeguard students online, no matter where they are. It offers classroom management tools, secure web-filtering, mobile device management, multi-school management and linked parental controls. Mobile Guardian supports Android, Chrome OS, iOS and macOS devices and is used by schools in North America, the United Kingdom, Asia, Europe and the Middle East.
